

Majestic Hair Flower

Ponytail:

1. The first thing that you always do is to put your hair into a ponytail holder. You can put part of it up, all of it up, or split into two ponytails, whatever you wish.
2. Make the Flower into the Shape that you would like to wear in your hair today.
3. Separate a small piece of hair from the rest of the ponytail and wrap it around the ponytail holder. Place the Hair Flower in place by sliding the ponytail through.
4. Finally, put the two stems in the formation of an X through the Flower and under the ponytail holder. Make sure the pin goes over the wire of the Flower, under the ponytail holder, then back over the wire of the Flower again.

Bun:

1. Put your hair into a ponytail holder. You can put part of it up, all of it up, or split into two ponytails for a double bun.
2. Wrap your hair into the shape of a bun. Don't worry if it is not perfect, perfection is not required. Twist the hair and wrap it around itself, tightly for best results.
3. Place the Hair Flower over the bun. Sometimes it helps to turn the Flower in the direction that you twisted your hair in order to keep wisps of hair from escaping.
4. Finally, put the two stems in the formation of an X through the Flower and under the ponytail holder. Make sure the pin goes over the wire of the Flower, under the ponytail holder, then back over the wire of the Flower again.

That's it, you're done. This is the easiest and most beautiful thing that you can do with your hair ever, not to mention the most versatile. Leave your Majestic Hair Flower out on the table or some place visible. Do not put it away. Play with it!!!! Have fun with it; see how many of your own shapes you can find.
